**Found—
a Watch!**

It looks as if it belongs to a substantial citizen. It feels that way, too. It's smooth and solid and thin. It slips into your pocket like a silver dollar and lies there snug and flat.

It keeps good time. It's the kind of watch your friends check their time by—that always gets you to your train while it is still in the station.

I've been looking for this watch for years. I know my customers want a thin, accurate, 7-jeweled, bridge-model watch like this; but until now the price of such a watch has been more than many of them cared to pay. That's why this new one is such a find. The name is "Ingersoll-Reliance." And the price is just about a third what you think it would be. It's \$3.50.

Or if you'd like this movement in a gold-filled case, you can have it—for just \$6. It's as big a value as the \$3.50 model.

**WHEAT MUST BE
TURNED IN OR
WILL BE TAKEN**

The seriousness of the wheat shortage situation is emphasized in a wire received by the federal food administrator for Arizona from Herbert Hoover, showing that some states have adopted the program of accepting voluntary tenders of flour held by consumers as well as the larger supplies of flour and wheat.

There is no excuse for farmers not selling their wheat at the government price, maintains the food administration, and active steps will be taken April 19 to requisition all supplies of wheat not yet on the market. Already several carloads have been accepted and will be taken over by the grain corporation to supply the needs of our armed forces and for the allies. Arizona is expected to contribute a considerable tonnage.

Mr. Hoover's telegram which commends the acceptance of flour reads as follows:

"Several administrators advise voluntary tenders of stocks of flour by hotels, dealers and consumers for use of the army and navy and the allies. This patriotic action is very commendable and we suggest as a most practical method of handling that all flour be accepted, regardless of the size of the package at a fair price. This flour to be stored at most convenient points for use in being reselling immediately an equivalent amount from the mills to go forward in the name of your state or the county in export sacks at once. This accomplishes all that is desired by those making sacrifice, does away with expense and delay of repacking, solves transportation problem and makes for more efficient service on our part in helping the critical situation abroad. The cost of resacking and repacking is very large and by the above means the exact quantities given will be released over and above our present program of giving them one half of our total supplies."

**MOTHERS LEARN
FROM DAUGHTERS**

A group of high school girls demonstrated a number of Hoover recipes before the Woman's club yesterday afternoon.

Delicious cakes, waffles, muffins and breads baked by the pretty young women many of whom had mothers in the audience.

They were not the kind of cakes that "mother used to make" because they were of the war variety and the frosting was there to get pointers from their daughters.

A charming collection of hats was placed on view and these, too, were the efforts of Miss Manley's domestic science pupils. Miss Manley gave a talk that covered both fields of endeavor, demonstrated a war recipe book and offered for sale the proceeds to be used for furnishings for the domestic science flat of the high school.

The musical features of the program were contributed by Mrs. Walter Leecraft, who sang a group of songs, and Miss Leola McDowell who gave a charming whistling number.

**POETRY BRINGS MAN
TO COUNTY PRISON**

Poems to his "Ruby" written by a 65 year old Mexican to a pretty American school girl of 12 resulted in Cayetano Gonzales being placed behind the bars of the county jail pending an investigation of his sanity.

Every morning the aged lover expressed his sentiments in passionate poems and presented his love offering to the child or one of the neighbor's children to deliver to her. The little girl, alarmed at his attentions, confided in her parents and yesterday Gonzales was brought before Justice Wheeler who suggested that he be held and examined by the county health officer. While he sat in court, Gonzales cheerfully hummed a love song and confided in the officers his great admiration for the idol of his heart.

The child lives with her parents on Park road. At one time Gonzales was employed by the family and has been helped by them when in need of financial aid.

**PARKER ON TRIAL
FOR BOOTLEGGING**

John M. Parker who conducts a soft drink stand on Third avenue and Washington street is on trial in Judge Stanford's court for disposing of intoxicating liquor.

Jointly charged with Parker is William Robert King who, on Monday, was found guilty of bootlegging and was sentenced to four months at hard labor and fined \$200.00 for each dollar. There is another charge against King besides the one on which he is at present on trial.

One of the state's witnesses yesterday was Clarence Mishler who recently broke jail and was captured in Yuma. The liquor transaction was described by Hugh Walker, Tidel detective, who testified that King with Mishler handed him a quart bottle of whiskey while he was in the "for hire" car of W. T. Prince, who has been convicted of violating the liquor law.

Detective Kelly, who shadowed King and Mishler, testified that he saw them get the whiskey from Parker. The state had not rested when court adjourned until 9:30 o'clock this morning.

**PRIZE BABIES
TO GET PRIZES
FROM GOVERNOR**

The week of April 1 to 6 was the greatest baby week Phoenix has ever known. Arizona was the first state in the union to "come across" in the nation-wide campaign for better babies. During the week over 200 babies were examined and a careful record made of each case. The records will be forwarded to the children's bureau in Washington.

Mrs. J. C. Norton, chairman of the child welfare section of the woman's committee of the Council of National Defense, was in charge of the work and was pleased with the response shown by the citizens of Phoenix. During the year Mrs. Norton expects to hold similar clinics throughout the state. "The trouble has been that mothers did not realize the necessity of learning more about babies. Now that the work has been organized and made a national issue we will have less difficulty in approaching the mothers."

It was very gratifying to see the number of out of town guests, Flagstaff, Williams, Prescott, Tucson, Globe, Bisbee and Florence were well represented and most of the mothers expressed their desire to have a similar clinic in their home cities. This will be arranged just as rapidly as possible.

Babies were examined and classified, there being five classes as follows: Birth to three months, three to six months, six months to one year, one year to 18 months, 18 months to two years.

The prize babies in each class are as follows:

Class 1—James Claude McMehee, Glendale avenue, Phoenix.
Class 2—Hans M. Herlick, 516 North First street, Phoenix.
Class 3—Dorothy Stark, 213 North Twelfth street, Phoenix.
Class 4—Louise Butler, Mesa, Arizona.
Class 5—Richard Bertram, 317 West Portland street, Phoenix.

These babies are to report at the office of the governor next Saturday at 11 o'clock and receive a baby bond.

**LAST OF "HI-Y" IS
SET FOR THIS WEEK**

The last number of the "Hi-Y" lecture course will be Thomas Brooks Fletcher, lecturer, next Friday evening at the high school auditorium.

The committee feels that in presenting Mr. Fletcher that it is a number which everybody will like. Mr. Fletcher has the reputation of being one of the greatest lecturers from any Lyceum Bureau in America. He has been lecturing for years and last year he lectured five times in the city of Oakland, California. This year Mr. Fletcher is filling 251 engagements.

Besides the lecture in the evening Mr. Fletcher will give one of his high school ginger talks for the benefit of the high school pupils. He will also speak before the Rotary club. He will use for his evening subject one of his famous lectures, "Tragedies of the Unprepared," "The Martyrdom of Fools," "Community Deadheads," "The Modern Judas" or "Who Is Your Hero." Lecture course audiences like Mr. Fletcher because he keeps them alive, alert, interested. His lectures deal with live topics and are filled with apt and forceful illustrations. He is as full of energy as an electric dynamo.

It not only states that the local department now has one representative in France, but that six other former members are now in the service and awaiting the opportunity to go overseas.

Of Tadlock, who was formerly lieutenant of No. 1 company, stationed at the Central Fire House, the Herald has this to say:

"The Phoenix, Ariz., fire department has landed its first representative in France as a member of the American expeditionary forces in the person of Sergeant Paul S. Tadlock, former lieutenant at the Central Fire Station. Word reached Phoenix from Sergeant Tadlock that he has arrived safely in France and was on his way to give battle to the Hun forces. The last previous word from Sergeant Tadlock was from an 'Atlantic coast port.' Sergeant Tadlock is one of seven former members of the Phoenix fire department now serving Uncle Sam in one capacity or another, but he is the first one of the group to reach France."
